Profile

I'm student on final year of computer science, on a road to the one of my life goals – to be a mobile developer and learn as much as I can about mobile development. Currently in a search for opportunity to learn more about mobile development and improve my skills.

Experience

- Prime Holding JSC - Flutter 6 months Internship
- The Breath App (Contract)
 - Developed with FlutterFlow and custom coded components
- Wallpaper app
 - Pexels API used for retrieving images
 - Cubits for state management
- GetFit (Student project)
 - Developed with Flutter and Firebase
 - Android app that generates pdf files with workout and meal plan
- NightOut (Student project)
 - Developed in Xamarin
 - Android app for finding events in the city online
- GreenForce (Student project)

- Developed in Java
- Android app for removing garbage and pollution from nature

Skills

Development skills

- Using Flutter and Android SDK for mobile development
- Capable of working with FlutterFlow no code tool
- Experience of publishing apps to various app stores
